Executive Summary

The PTC Kerema course was held over 4 & 5th May in the Catholic Diosis Hall ,the largest public hall in the town

The four instructor s who ran the course were Lucas Samof, Sonny Kibob, Georgina Philips & Vincent Atua (Team Leader).

There were 32 participants in all 21 from the Kerema Hospital and Urban Clinic with 12 from the rural health services. The participants were a mixture of Doctors, HEOs, Nursing Officers and CHWs.

All 33 participants were able to complete the course and generally found it be a very useful course for their daily practise and it has helped them improve their confidence in attending trauma emergencies.

Acknowledgements

Special mention must be made of Dr John Kiap and the administrative staff of Kerema Hospital for their part in the organising of the course. Dr Kiap had to do a lot in a short time as Dr Wawe who was our initial contact was unable to be present as he was attending an NDOH workshop in Alotau. Dr Kiap had himself just returned from compassionate leave that very morning. They provided all the lunches and tea breaks and assisted with transport (at the hospital expense) in getting us out of Kerema when our return flight got cancelled by *Airlines PNG*. They also printed the certificates for the course.

Also thanks to Morris the housekeeper at the Catholic Mission Guest house for all the meals.
